

Do not make or allow any changes to New Jersey's DO NOT CALL law. I have an unlisted phone # and did so for privacy purposes - I found it annoying and offensive for some telemarketer to be allowed to randomly dial numbers and access my home. They do not need to call me to sell products that's what advertisements are for and there are any number of ways to advertise - tv, radio, mail etc. They should not be allowed to invade my home. Do not allow this law to be undermined.
